

THE ARCHITECTURE & ENGINEERING OF THE READING RAILROAD

For that junior engineer in your life who loves to draw and everything about trains, this is the place to bring them!

Bring Your Child for a Hands-On Engineering Experience \$15 - \$25

(depending on number of children)

2-hour experience from 9 a.m. to 11 a.m. | Sept. 25th, Oct. 2nd, Oct. 9th or Oct. 16th

Reading Railroad Heritage Museum | 500 S 3rd Street | Hamburg, PA 19526

Full Steam Ahead includes:

- Learn from an experienced teacher.
- Past drafts and drawings from those who planned the rails of the Reading Railroad.
- In one of our passenger cars you and your child(ren) will enjoy a book about being an engineer.
- Learn why the caboose is no longer needed.
- Finally, your child(ren) will take everything they learned and make their own "blueprint".

It will be a fun-filled engineering experience for both you and your child(ren).

Full Steam Ahead is appropriate for children in 1st through 6th grade.

Your child(ren) must be accompanied by an adult.
